1/30/71 Henry Wade told me he had seen the Revill affidavit by 5 p.m. 11/24/63 & has no doubt of Revill's presence & accuracy (unnecessary). Pat Revill (wife) Henry's secretary, told me on husband & Henry had been the two of people except that Henry had just "talked too much at the wrong time."

Meeting delayed from 3 to 4:30 because of a conference not on his calendar yesterday p.m. when we made the date. He explained, saying it was a delegation asking him to run in the Democratic ticket for governor because of Dr Shivers. He doesn't think he will because he doesn't think he can win. He also has a private law firm & what he is no longer D.A. One of his workers, a divorced who drove the car in which Henry went there and took me a couple of blocks from the last known whereabouts. He had been assigned to drive the ~~Agent~~ car behind the one LHO was supposed to be in but did not get it in place. He heard the shot while maneuvering it. He did not see the shooting.
